### About F5

#### SECURE AND DELIVER EXTRAORDINARY DIGITAL EXPERIENCES

Every company today is in the digital experience business. And, in the wake of COVID-19, customer expectations are higher than ever because those experiences are now the primary way that people interact and transact with just about every organization.

F5 helps organizations deliver and secure the extraordinary digital experiences that customers demand by enabling adaptive applications which, like living organisms, will naturally adapt based on their environment—growing, shrinking, defending, and healing themselves. Through a portfolio of automation, security, performance, and insight solutions, F5 empowers organizations to create, secure, and operate these adaptive applications, which increases revenue, reduces costs, improves operations, and better protects users.

### About Twimbit

Founded in Sept. 2018, Twimbit stands for "The World is Moved by Ideas and Technology". Twimbit leverage technology to reimagine research from topic discovery to outcome delivery. Through a collaborative business model, Twimbit invite best-in-class experts to co-create market research. Twimbit is a team of intellectually curious individuals with a passion to achieve great things. With technology at the forefront of our business, Twimbit believe that we will change the way research is produced and perceived.

Twimbit's mission is to bring joy in the consumption of research, for every individual and every company.
